

Gastón Cohan

Front-End / Mobile Engineer — React, React Native & TypeScript

Buenos Aires, Argentina (Remote) · gastoncohan2@gmail.com · +54 9 11 6428-6188

PROFESSIONAL SUMMARY

Front-End / Mobile Engineer with 5+ years of experience building production React and React Native applications across mobile, e-commerce, and enterprise clients. Hands-on experience with TypeScript, Redux, and REST API integration through centralized service-layer architectures. Comfortable working within Agile/Scrum teams, following structured code review workflows, and collaborating directly with backend, design, and product teams to ship features end-to-end.

PROFESSIONAL EXPERIENCE

deCampaCampo — Front-End Developer (Semi-Senior) — React Native

Aug 2024 – Present

- Developed and maintained features for a React Native mobile application, using Redux for global state management and a centralized API service layer connected through an API Gateway.
- Built reusable functional components following consistent architectural conventions (path aliases, centralized services), improving maintainability across the codebase.
- Implemented secure token storage using SecureStore, avoiding persistence of sensitive data in unencrypted storage.
- Followed the team's code review and diff-submission workflow (Phabricator/Arcanist), maintaining architectural consistency and code quality standards.
- Wrote component tests to validate feature reliability.

Tools: React Native, JavaScript, Redux, Expo, npm, Phabricator

Tr1ck Studios — Front-End Developer (Semi-Senior) — React Native & React.js

Feb 2022 – Aug 2024

- Developed new features for a React Native application (iOS & Android) for client Grandest, collaborating directly with backend and design teams to scope and implement requirements defined by the engineering lead.
- Built features using TypeScript, improving type safety and reducing runtime errors across the codebase.
- Wrote component tests using Jest to validate feature behavior before release.

Tools: React Native, TypeScript, Node.js, Yarn, Jest

Applica — Front-End Developer (Semi-Senior) — React.js

Feb 2022 – Mar 2023 (Held concurrently with Tr1ck Studios)

- Led front-end development for client CAM4 within a Scrum team, working directly on a live production website.
- Designed and implemented A/B tests on production pages, generating usage metrics to guide data-driven UI/UX decisions.

Tools: React.js

Algoritmo Taller Digital — Front-End Developer (Semi-Senior) — React.js

Feb 2021 – Feb 2022 (Held concurrently with EVERIS)

- Built GreenBiz Tracker (greenbiztracker.org), a data-driven web application for a U.S.-based client, featuring an interactive map and real-time data visualization.
- Delivered front-end features across multiple client projects for U.S.-based customers.

Tools: React.js, React CLI

EVERIS — Front-End Developer (Semi-Senior) — React Native

Dec 2020 – Feb 2022

- Contributed to the development of "YPF Ruta," a React Native application built for YPF's internal vehicle fleet, including a digital wallet system.
- Developed front-end features for a LATAM Airlines application within a Scrum team.
- Built and distributed APK/IPA builds for internal testing cycles, and provided technical support to end users.
- Completed internal training in UI/UX, Computer Security, and React/React Native (CoderHouse).

Tools: React Native, Node.js, npm

ADDITIONAL EXPERIENCE

Roer International SA — Stock Logistics Assistant (Dec 2019–Mar 2020): shipment planning, inventory database tracking, merchandise reception.

Travel Rock SA — Salesman / Coordinator (Mar 2017–Nov 2019): sales planning, team coordination, customer service on group trips.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript, TypeScript, React.js, React Native State Management: Redux

APIs & Architecture: REST APIs, API Gateway, centralized service layers Testing: Jest

Tooling: npm, Yarn, Expo, Node.js, Git, Phabricator/Arcanist Practices: Agile/Scrum, A/B Testing, Code Review

EDUCATION

ORT University — Systems Analyst (2024–present) UTN — Information Systems Engineering (2017–2020, incomplete)

CoderHouse — React.js & React Native (2021), final e-commerce projects approved

Calasanz School — High School Diploma, Accounting (2012–2016) Cambridge FCE — Upper-Intermediate / B2 (2017)

LANGUAGES

Spanish — Native English — Upper-Intermediate (B2, Cambridge FCE)
